ALL LOOK TO ILLINOIS.

The Key to the Miners' Strike Is Held There.

IT MAY SOON BE SETTLED.

Conference Called of the Operators and Miners to Meet at Springfield Thursday. Serious Trouble Is Hourly Feared at Cripple Creek, Colo.—Trying to Move Trains in Indiana.

SPRINGFIELD, Ills., May 29.—The conference of mine operators of the central and southern Illinois fields and members of the executive board of the United Mine Workers of Illinois, called by State President Crawford, of the Mine Workers, was held in this city yesterday. State President Crawford presided. Operators representing about 50 properties were present.

National President McBride of the United Mine Workers of America, in addressing the operators, told them that central and southern Illinois were the greatest drawbacks there were to an adjustment of the national strike, and that if an agreement could be reached between the operators and miners in those fields that would place them on a comparative basis with the remainder of the country the strike would be settled.

F. W. Tracy of Springfield, Paul Morton of Chicago, James W. Ellsworth of Chicago, representing railroad coal properties in Pennsylvania; Ben Warren of Peoria, Thomas Spellman of Danville and many other operators spoke favoring a fair and amicable adjustment.

An agreement signed by 19 operators in the Peoria and Canton fields restoring wages to last year's scale was announced by representatives of those districts, who said it would be put into effect as soon as the men would return to work.

Representatives of the Pana and of the Consolidated Coal company's mines refused to meet the miners' executive board at this meeting, and the responsibility for the cutting of prices below remunerative figures was thrown on them. It was deemed inexpedient to submit any proposition to the executive board unless representatives of these properties were brought into conference.

After much discussion, a committee consisting of Paul Morton of Chicago, Thomas Spellman of Danville and Colonel John S. Lord of this city was appointed, in accordance with resolution passed, to send invitations to all operators of Illinois to attend an operators' meeting to be held here next Thursday. A delegate meeting of Illinois miners will be held here the same day.

The executive board of the United Mine Workers will be in conference with the miners, and they will submit a scale to the operators.

President McBride assured the operators that the national strike was in such shape that when a fair scale was agreed on by the Illinois operators the strike would be settled at once.

AFFAIRS AT CRIPPLE CREEK.

Serious Trouble Is Almost Sure to Occur Hourly.

CRIPPLE CREEK, Colo., May 29.—If trouble breaks out again, and it is impossible to see how it can be averted, the results bid fair to be far more terrible than those already witnessed. The armistice declared Sunday was made use of by the strikers to increase their forces. Nearly 400 men have been recruited in Denver, and only await the slightest outbreak to be forwarded to Cripple Creek and be sworn in as deputies.

The strikers seem to have taken courage from the action of Governor Waite, and affect to believe that the militia would tend to aid them in carrying out their purposes. By this as it may, the entire district is terrorized, and the strikers, being encouraged by the temporary withdrawal of the deputies, are becoming bolder and more imperative and intolerant. There is no danger that a non-partisan will be fired upon without first being warned; but when ordered to stop, it means that he must stop just where his feet are resting. It is but a step from this attitude to one of most reckless bearing, and people living in the camps fear the outcome.

All day strikers have been searching for arms and ammunition in the mining camps, and wherever arms, ammunition or provisions were found they were confiscated and receipts given for them. None about the camps except strikers are permitted to carry arms, and the strikers, who reign supreme, have issued the order that every able-bodied man found in camp when the real contest comes will be forced to carry arms in their ranks. The result is that many people are moving away from the camps to the city of Cripple Creek and elsewhere.

Towns and county officials are utterly unable to do anything in the face of such an overwhelming number of desperate men. Parties of men who are in sympathy with the mine owners have gone to Midland, where they will meet the deputies and conduct them through the best routes to the strongest points about the scene of trouble. A large party of strikers have also gone toward Midland to meet the deputies and retard their progress as much as possible. The country about Bull Hill, the strikers' stronghold, for eight miles square, is held and patrolled by the strikers.

WILL TRY TO MOVE COAL.

Conflict With the Federal Courts Likely to Occur in Indiana.

TERRE HAUTE, Ind., May 29.—W. H. Lyford of Chicago, general solicitor of the Chicago and Eastern Illinois Railroad company, arrived in this city at 7 o'clock last night with a restraining order which he has in conjunction with

Messrs. Lamb & Beasley, the road's attorneys here, secured at Indianapolis, yesterday, of United States Judge Baker, enjoining the striking coal miners and all others from interfering with the progress of the coal train of 24 cars, which the strikers sidetracked at Clinton Locks Saturday and now have in their possession.

United States Marshal Hawkins also arrived yesterday evening. Armed with their writ and with a reasonable force he will make an effort to move the coal train. The writ is issued under the provisions of the interstate commerce law.

The train is in the heart of the trouble, some Indiana mining district, and trouble is feared.

The federal government being behind the writ all the force necessary to move the train will be used.

Saturday a posse of Terre Haute police, trying to move the train, was driven off, barely escaping with their lives. The coal is partly owned by the Chicago and Eastern Illinois company and partly by Chicago dealers. The miners have sworn the coal shall not be moved, and most of them are armed.

MINERS ARMING.

They Are Determined That No Coal Shall Be Moved.

BRAZIL, Ind., May 29.—Word reached this city yesterday afternoon from Clinton that the miners were organizing and arming themselves to resist any effort made by the sheriff of Park county and his deputies to secure the coal they have sidetracked. It is stated that the officials of the Chicago and Eastern Illinois and Big Four roads claim that they are determined to get possession of their coal if they have to petition Governor Matthews for assistance. The miners say they are going to watch the Vandalia line and sidetrack every car of coal that passes over it.

The chamber of commerce has issued a circular to the miners asking them to meet them jointly at the mayor's office Wednesday. The object of the meeting is to induce the miners to allow factories in this city to mine their coal and resume operation, thus giving employment to 150 workmen now idle.

CLOSING DOWN THE WORKING MINES.

POMEROY MINERS MEETING WITH SUCCESS IN THEIR UNDERTAKING.

POMEROY, O., May 29.—The steamboat load of striking miners, which left here yesterday to visit the mines eight miles down the river to stop work in three mines, returned at 5 p. m., having stopped the two mines on the Ohio side. Fifty men dropped their tools and joined the procession. Middleport citizens furnished a free dinner for the 500 men in ranks. At Spillman, W. Va., where the premises are guarded by a Gatling gun and a dozen deputy sheriffs, the boat was not permitted to land with the strikers. This is the only mine in operation in this district.

The same steamboat has been ordered and 800 strikers will mass a mile above there and go into camp until the 40 men in the mine can be induced to quit work. The sheriff of Mason county came up on the boat last night with the strikers and agreed to meet them when they land and see that there are no clashes. The result of this meeting is awaited with deep interest by every citizen in the Pomeroy bend.

Guarding the Railroad.

MASSILLON, O., May 29.—Superintendent Wilson of the Wheeling and Lake Erie railroad is at Dillonvale investigating an alleged attempt to wreck a train, loaded with nonunion coal, by tying a chain across the rails. In the meantime a careful patrol of the track and bridges has been ordered.

COAL TRAINS CAPTURED.

A Sheriff's Orders Defied and Winchesters Have Been Sent For.

WENONA, Ills., May 29.—Three coal trains, guarded and escorted out of Minonk yesterday by troops, were recaptured by the strikers here a few hours after their triumphal release from the blockade. Strikers to the number of 150 waylaid them, and taking possession of the trains, sidetracked them. Word was sent at once to Sheriff Lense at Metamora and yesterday evening he appeared on the ground. Accompanied by deputies he went among the strikers and tried to persuade them to abandon their obstruction. They defiantly declined to do so.

After exhausting all peaceful measures the sheriff sent to Tolosa for 100 Winchesters and 4,000 rounds of ammunition. With these he proposes putting a posse in the field to capture and release the coal trains. He has also wired to Springfield a report of the state of affairs and requested Governor Altgeld to send troops to the scene immediately.

MINES ALL LOADED.

If Nonunion Men Go to Work They Will Be Blown Up With Dynamite.

DENVER, May 29.—Information has been received from Cripple Creek that even the strikers have been driven from the camp the men who took their places in the mines would be in imminent peril. Every mine in the camp over which there has been trouble is "loaded."

Large quantities of dynamite have been stored in the shafts, back of the timbering, by the strikers, and hidden wires attached to these charged in such a manner that they can be exploded and every person in the mines instantly killed, while the men who start the battery remain out of sight.

Rioters Arrested.

LA SALLE, Ills., May 29.—Everything is quiet here. The most exciting events of yesterday were the arrests made by the sheriff. Ten participants in Thursday's riot have been gathered in and are under a strong guard at Camp Mathiesen. They will be taken to Ottawa for trial. The man Byrkowski, who was so

territory beaten by his fellow-countrymen on Friday last, is missing, and it is feared that he may have been murdered.

Peace Restored.

MINONK, Ills., May 29.—The population of Minonk will rest quietly hereafter, it is now believed. The miners have gone home, the deputy sheriffs have mostly been excused and all but one company of troops have been withdrawn. There has been no loss of life or property, and it is believed that quiet has been fully restored.

Miners Back to Work.

OTTAWA, Ills., May 29.—The trouble among the miners at Marseilles has evidently ceased and no further fear exists among the miners at that place. The guards and special officers have been removed from the shaft and the miners at that place are all at work.

All the Large Mines Closed.

CLINTON, Mo., May 29.—Striking coal miners from Deepwater, Brownwood and North Kimberlin, over 100, went to Calhoun Sunday and induced the miners working there to stop work. This practically closes all the large mines in this Henry county.

The Supply.

DULUTH, May 29.—Coal stocks are being depleted at an alarming rate. Every railroad running northwest from Chicago is getting its supply and the fleet is all coaling here. At this rate the coal here will only last 15 days.

Trouble May Begin Any Moment.

DENVER, May 29.—The mine owners have decided not to arbitrate differences with the Cripple Creek miners and trouble may begin any moment.

CONGRESS.

District Day in the House and Tariff Talk in the Senate.

WASHINGTON, May 29.—It being district day in the house the Brawley bill for the repeal of the 10 per cent tax on state bank issues was sidetracked temporarily, and the few members present gave partial attention to District of Columbia bills.

An interesting event of the day was the reading of the letter from the sons of Louis Fossuth in reply to the letter recently sent by Speaker Crisp under directions of the house.

The senate bill to fix the northern boundary line of the Warm Springs Indian reservation of Oregon was passed as were sundry house bills.

At 5 o'clock the house adjourned.

Not a Vote Taken.

WASHINGTON, May 29.—The senate spent eight hours yesterday discussing the question of free lumber. Not a vote was taken. The tariff bill places lumber in the rough on the free list. The debate yesterday was upon Mr. Hale's proposition to transfer lumber to a dutiable list at the rates fixed in the McKinley law. Senators Frye and Hale of Maine, Perkins of California and Mitchell and Dolph of Oregon, whose states are particularly affected in the lumber industry, occupied the major portion of the time in the support of Mr. Hale's amendment.

Locomotive Engineers to Have a Home.

ST. PAUL, May 29.—The convention of the Brotherhood of Locomotive Engineers yesterday decided upon the insurance matters which had been waiting attention since the last convention, owing to the reincorporation of the company and the remodeling under the Ohio law. It was decided to dispose of the Meadow Lake farm, the freehold of the order, situated in Illinois, and the proceeds converted into a fund for disabled members of the order.

Bank Robbers Escape.

PARIS, Tex., May 29.—The Longview bank robbers are now far from railroad and telegraph lines. A report comes that they have crossed the Frisco railroad, 30 miles north, headed for the Kiamichi mountains, and doubtless reached them before dawn. A rumor prevalent here is that deputy marshals killed one of the robbers and captured the others. This is believed untrue. It is now thought that they are beyond capture.

Higher Than Ever Before.

SPOKANE, Wash., May 29.—High water here is playing havoc generally among the river course. The river is many inches higher than ever before. During the past three days several bridges were swept away. No lives have been lost, although several narrow escapes from drowning are reported.

Cut Up by His Stepson.

MAYSVILLE, Ky., May 29.—Charles Graham was horribly cut up by his stepson Henry Allen, yesterday, at Helena, this county. The trouble grew out of a horse trade. Graham was cut with a knife in over 20 places and will die. Allen's mother was cut in the arm, while trying to prevent the trouble.

Royal Wedding.

BRUSSELS, May 29.—The marriage of Princess Josephine of Belgium to Prince Charles of Hohenzollern-Sigmaringen took place yesterday.

What He Unearthed.

COSHOCOTON, O., May 29.—Samuel Engle was digging fishing worms when he unearthed \$100 in money, a revolver and a gold watch.

Stabbed His Sister.

STEUBENVILLE, O., May 29.—Barney Craig, a brakeman, stabbed his sister in a quarrel, inflicting a fatal wound.

Saloon Quarrel Ends in Murder.

LIMA, O., May 29.—Frank Palser, of a prominent family, shot and killed Pat Lyons in a saloon quarrel yesterday afternoon. Palser escaped.

Hail Three Inches Deep.

WASHINGTON C. H., O., May 29.—During a heavy rainstorm hail fell to the depth of three inches about two miles north of this place.

CONDITION OF HAWAII

Claus Spreckles Has Positive Views on the Subject.

A REVOLUTION PREDICTED.

He Thinks the Provisional Government Will Soon Go to Smash—His Description of Queen Liliuokalani's Overthrow—A Report From Admiral Walker Does Not Corroborate With Spreckles' Views.

NEW YORK, May 29.—Claus Spreckles has very positive views about the condition of Hawaii, where his sugar plantations lie.

"The present provisional government," he said to an Associated Press representative, "is bound to go to smash. There has not been a revolution in the islands, but there will be one, and no mistake, before long. The measures by which the queen was overthrown were revolutionary enough, but the whole proceedings were as quiet as a district school election.

"I was there at the time, and witnessed every detail. When the sailors and marines from the Boston landed with their superior rifles and machine guns, resistance was, on the face of things, so useless that nothing could be done by any party that favored the maintenance of the throne.

"When the armed Americans were withdrawn the provisional government organized an army of 300 Germans, who had been employed on the plantations at \$15 a month. The command is known as 'Die Drei Hundert' and the troopers lie around doing nothing at \$10 a month.

"I suggested the advisability of forming a republic in the beginning, but they were about ready to kill me for advancing such an idea. It was annexation to the United States or nothing. Since then they have written me asking me to come over and help them organize a republican government. I have told them that I was through with the whole business and they could work out their own salvation.

"There are 14,000 voters on the island, and the provisional government represents but 5,000 of that number. The natives, as a mass, and a large percentage of the whites, are either openly in favor of the reigning house, or at all events, opposed to the present government. The natives are not to be despised. They are smart people, many of them highly educated, and their representative leaders are men of fine temperament, orators, legislators and diplomats of no mean ability.

"A resolution under the circumstances is unavoidable. So overwhelming and able a majority is not to be kept down by a show of force that a little preparation could so easily overcome.

"As for myself, I have disposed of the greater part of my interests on the islands, partly to my sons and partly to my partners and others. I intend to go out of business. I am old enough and have worked hard enough to have a little rest."

Mr. Spreckles is accompanied by his wife and daughter. They came directly from San Francisco. Wednesday next the party sails on the Paris for Europe, to be gone a number of weeks.

Report From Admiral Walker.

WASHINGTON, May 29.—A report from Admiral Walker at Honolulu was received at the navy department yesterday. The admiral said that the elections for delegates to the constitutional convention had passed off quietly and that the supporters of the provisional government had secured a fair working majority.

At the date of the report order prevailed in all parts of the islands. If Liliuokalani or her adherents contemplated an outbreak on the eve of the election, knowledge of the conspiracy had not been obtained by the officers of the American fleet. It seemed clear to Admiral Walker that the program of the provisional government as mapped out in earlier advices from Hawaii would be carried into execution.

WOOL AND SHEEP.

The "American Wool and Cotton Reporter," edited by a Republican, is out in an article in which it refuses to endorse the cry of its fellows that the Wilson bill is going to destroy the wool and sheep industries of this country. Not only this, it says the present condition of the wool and sheep market "is by no means attributable to tariff legislation!" Continuing it says:

We were asked the other day whether we considered it advisable to embark in the sheep business now when conditions were so discouraging. Our answer was most assuredly we would advise embarking now! It will be many years before sheep will again be as cheap as they are to-day, perhaps it will be a life time before they are as low. The tide has already turned. Mutton has, within the past three weeks, advanced and wool which to-day is lower than ever before in the history of this country, shows signs of improving. Our domestic consumption of mutton is rapidly increasing, as is also our export demand. Before a year has passed we expect to see a 100 per cent. advance in sheep. Apply the old apothegm of Wall street: "Buy when everybody wants to sell." Start in on a moderate scale. Buy a few good sheep. The sheep business has paid in the past. It will pay in the future, and it will pay better than any other branch of stock breeding upon the American ranch or farm before many months have passed.

A rise of 100 per cent. under "free trade" in wool as provided for in the Wilson bill; and the prediction made by a rank protection journal! "As the prospect for the passage of the Wilson bill increases admissions of this kind, says the Georgetown, (O.) News-Democrat, will appear frequently. Nobody knows better than the beneficiaries thereof that "Republican protection is a fraud" —and a rank one at that."

THERE will be no coal run from Pittsburgh on the present rise.—BULLETIN.

Why didn't you state the cause, Brother Marsh? The reason there will be no coal run on the present rise in the river is because there is none loaded, caused by the strike of the miners under this good Democratic administration, which you say is such a howling success.—Public Ledger.

Our readers are an intelligent class of people, and we are satisfied they are well acquainted with the condition of affairs in the coal region. But really, Br'er Davis, you talk as if these coal strikes were something new, and when you talk that way you take your readers for a set of ignoramuses. They know, however, and you know so, too, that coal strikes have been of common occurrence ever since the coal barons imported a lot of ignorant foreigners and crowded out American laborers.

"The sugar bounty under the McKinley bill," said a protectionist contemporary, "cost the people of this country about \$10,000,000. The sugar tax proposed by the pending tariff bill will cost them something over \$48,000,000. The people will pay something over \$38,000,000 to please the free trade quacks." "Oh, no," replies the Courier-Journal, "they will pay \$38,000,000 into the National Treasury, whereas, under the McKinley law they were taxed on other articles not only to raise this \$38,000,000, but also the \$10,000,000 paid to the sugar growers as a bounty, to say nothing of the additional millions, which never reached the Treasury, but went to the producers of the taxed articles as the subsidy of 'protection.' This \$38,000,000 of revenue really cost the people under the McKinley act more than \$138,000,000."

It is said Hon. E. E. Settle's prospects in the "Ashland" Congressional district are growing brighter every day. Breckinridge and Owens may find out before the campaign is over that the man from "Sweet Owen" is right in it.

DANVILLE Advocate.

"At the shoot of the gun club Friday the programme was varied by the substitution of the unknown for the known traps which have been the practice since the club was inaugurated. Shooting at the birds without knowledge of which trap they were to come from was an innovation that puzzled the shooters, but a few caught on before the sport was far advanced and made what would be considered, under the circumstances, excellent scores.

The match at twenty-five unknown birds was won by Dr. Marsh with nineteen broken."

At Dieterich's Grove Wednesday, May 30th, Miss Henrietta Vinton Davis, the great elocutionist of Washington, D. C., will give one of her choice entertainments. "TRICKS IN ALL TRADES."

The Courier-Journal Tells of Some of "Morg's Maneuvers of Late Years."

The "In-and-About-the-State" writer of the Courier-Journal had an interesting article Monday concerning some recent political developments in Lewis County and the approaching Congressional contest. He says: "The defeat of the ticket backed by Hon. 'Morg' Thomas in the Republican primary in Lewis County to nominate candidates for county offices is creating much comment in that section of the State. It is heralded by those belonging to the other faction as a 'deadener,' and they are loud in their claims that Gen. Thomas' grip has been effectually broken. It remains to be seen, however, whether such is the case. For years and years he has held the Republican party in the Ninth district in the hollow of his hand, and has absolutely dictated its policy and named its candidates. When in Congress he managed matters so adroitly as to create obligations on the part of nearly every strong man in the district to him, and this, coupled with his personal following and wealth, made him invincible. He is said to be a great believer in the power of money in politics and has always put up freely and in places where it would do the most good.

"It was generally understood that he was solely responsible for the election of George Halbert to the Legislature in 1891. The State was to be divided into judicial districts that session, and Gen. Thomas desired one created in such a way that one of his relatives, who is a Republican, could be elected. He knew well enough that if a Republican was sent from Lewis County to the Legislature that he would not have much influence and would stand no show of getting what he wanted. He, therefore, manipulated the wires so as to throw the bulk of the Republican vote to Mr. Halbert, who was the Democratic nominee, and he was elected in spite of the fact that the county is overwhelmingly Republican. The Democrats in the Legislature, however, were not to be caught napping, and put Lewis County into a reliably Democratic district, so that the General's shrewd work went for naught.

"Senator Pugh, who represented Mason and Lewis counties in the last General Assembly, is a son-in-law of Gen. Thomas, and the latter is very desirous of nominating him for Congress against Rolla Hart. The other faction, however, are determined to keep up the fight, and Thos. A. Davis, editor of the Maysville Ledger, will be a candidate for the Republican nomination. The fight will be a pretty one and will be watched with interest by the Democrats, who will rejoice, no matter what the result is.

"It remains to be seen whether Gen. Thomas' hold is permanently broken or only a little bent."

Still Faster.

Ashland News: "Superintendent J. M. Gill, of the Huntington Division of the C. and O. road, announces that there will soon be a change in the standard of speed on the C. and O. road. The recent experiments with the C. and O. F. F. V. have shown that this rate now quite speedy may be considerably improved, and it will not be a surprise if the time card is so changed as to make the rate at least five miles an hour faster on the entire stretch. The matter will be definitely decided this week."

Death of John T. Fisher.

Ex-Deputy Marshal John T. Fisher died Monday at 11:45 a. m. at the home of his mother on East Fifth street, aged twenty-nine years. He was a sufferer from a complication of diseases, and had been in failing health for several months.

Deceased was a man of kindly disposition and made a good record as a police-man.

The funeral will occur at St. Patrick's Church to-morrow at 9 a. m. Burial at Washington.

THE COXEYITES COMING.

"General" Frye's Detachment Will Reach Here To-day and Expect To Remain Some Time.

"General" Frye's detachment of "Coxeyites" will likely be with us before the day closes.

They were to leave Cincinnati last evening for Pittsburg on a couple of barges towed by the steamer F. J. O'Connell. The owners of the boat get \$35 a day and they are to carry all the men that can crowd on the barges.

The boat is to land at sunset and resume her trips next morning.

The Cincinnati Times-Star, speaking of their departure from that city, says: "The first stop will be Maysville, where it is expected to remain a day or two."

Then the Times-Star adds: "There is liable to be serious trouble among the hobos at any moment. Notwithstanding the fact that Cincinnati people have given the army over \$500, Gen. Frye and his partners, all of whom are out for the cash, issued an order that he would not allow any of the Cincinnati delegation to go with him unless they could furnish their own provisions, and not in any way be dependent on the California regiment."

"It is said that Fry has nearly \$200 of Cincinnati money in his pocket, and that he will not give a cent to the Queen City delegation. The local commonwealers say that they have just as much right to the money as the rest of the army and claim they will make a fight for their rights by force. The California people are making every effort to keep the Cincinnati boys at home, but the bluff has been called, and there is little doubt but that the home regiment will take the boat with the rest."

From the crew of the St. Lawrence, which left Cincinnati last night, it was learned that the "army" didn't expect to leave there until this morning. If they started on their trip this morning the O'Connell ought to reach here this afternoon.

THE COXEYITES' MOVE.

Kelly's Naval Fleet Reaches St. Louis.

HEARTY WELCOME EXTENDED.

His Army Will Be Well Taken Care of While There — Another Contingent Reaches Denver—Mosher Gets Disgusted and Returns Home—General Fry Leaves Cincinnati by Water.

ST. LOUIS, May 29.—Kelly's army, 1,100 strong, arrived in St. Louis yesterday evening from Alton, Ills. The commonwealers' fleet came to anchor off Ferry street, near the city waterworks, and the men went ashore, where they will spend their time in camp until the march, or rather the sail, to Washington is again taken up. They were welcomed by the local labor unions and a big crowd of people. A good supper provided by the trades and labor unions of the city awaited the travelers on their arrival.

The Kelly army during its sojourn in St. Louis will have no reason to complain of a lack of food. Aside from the preparations which the various labor organizations have made, Nat Sebastian, a saloonkeeper, has made liberal provision for their subsistence. When his announcement to that effect, printed in a morning paper here, reached the commonwealers at Alton, they telegraphed that an immediate start for this city would be made. Sebastian has provided 12 head of cattle, 12 sheep, a wagon load of vegetables, and 1,000 loaves of bread. He will entertain General Kelly and the two ladies of the party at his home.

FORTY-NINE Days on the Road.

DENVER, May 29.—Last night 375 Coxeyites reached here from Salt Lake over the Denver and Rio Grande road; 200 of the men were the Utah contingent under the command of General Carter. The remainder are from California, and have been 49 days on the road from southern California. They report having experienced terrible hardships on the Utah desert and show signs of having undergone great distress. These men are by far the best looking industrials that have arrived here. They brought with them sufficient provisions to last several days.

Mosher Disgusted.

COLUMBUS, O., May 29.—J. C. Mosher, who left here May 22 in command of 36 Coxeyites, and who returned Saturday night, says he found his men were mainly tramps, who threatened depredations unless given food en route. He left the crowd. It has gone to pieces. He says if there were a million armies here he would not go with one of them.

Fry Leaves Cincinnati.

CINCINNATI, May 29.—General Fry with his army of 350 commonwealers left this city yesterday evening, going up the Ohio river on barges procured by the labor unions of the city. They were well taken care of while here.

NO HOPE FOR BRECKINRIDGE.

Judge Bradley Overrules a Motion to File a Bill of Exceptions.

WASHINGTON, May 29.—Judge Bradley has overruled the motion made by counsel for Colonel William C. P. Breckinridge to file a bill of exceptions by virtue of which the suit of Miss Madeline Pollard against him might be carried to a higher court on appeal.

The action was taken because of the objection made by counsel for Miss Pollard that Mr. Breckinridge had not complied with the law requiring that the bill of exceptions be furnished to them within three days, Sundays excluded, before the expiration of the time within which the motion to file had been made. The effect of this apparently will be to prevent an appeal being taken.

Six Round Prize Fight.

BOSTON, May 29.—At the Casino last night, Peter Maher, Ireland's champion, knocked out George Godfrey, Boston's colored heavyweight, in the sixth round, after the greatest battle seen in Boston for years. It was a question whether Godfrey was "out" or not, but the fact remains that at no stage of the proceedings did the colored man hold the upper hand. Frank Stevenson of New York was referee.

Lifesaving Stations Being Investigated.

CHICAGO, May 29.—Inspector of Lifesaving Stations C. A. Abbey has commenced an investigation here of the service of the local lifesaving crew during the recent gale, in which 10 vessels were wrecked and a score of lives lost at this port. The investigation is the result of severe criticism of the crew's work during the storm and will continue for several days.

Michael Schwab Now a Citizen.

CHICAGO, May 29.—Michael Schwab, who was recently pardoned by Governor Altgeld while serving a 15-year sentence for complicity in the anarchist riots of 1885 took out his final papers as a citizen yesterday. He came to Chicago in 1879, and took out his first papers in 1883.

Fatally Shot.

PAINTSVILLE, Ky., May 29.—Near Eastpoint, six miles south of this place, a difficulty occurred between Ed Freind and Dave Sweeney, in which the latter was fatally shot. The trouble came up over Sweeney's hogs breaking into Friend's cornfield. Freind has not been captured.

California Assignment.

OAKLAND, Cal., May 29.—B. W. Parkhurst, a well known real estate man, filed a petition of insolvency yesterday. His total indebtedness is \$303,000. Parkhurst has real estate worth \$169,000, mortgaged for \$129,000; personal property worth \$131,000, but encumbered for \$161,000.

Four Killed and Six Injured.

BERLIN, May 29.—Four workmen were killed and six injured yesterday by the collapse of a house in Koch street which was in process of reconstruction.

ASHLAND, Ky., May 29.—The work of securing a jury to try W. S. Streeton on the charge of having embezzled \$1,000, 000 belonging to the defunct Northwestern Loan and Guaranty and Trust company has begun. The trial is expected to last six weeks.

Mills Resume.

ASHLAND, Ky., May 29.—As a result of the late timber run in the Big Sandy all the sawmills of this section, including the two yellow poplar lumber company mills, that have been idle four months, resumed Monday, giving employment to about 300 men.

Death in a Gravel Pit.

CINCINNATI, May 29.—A man named P. Weicher was instantly killed yesterday while working in a gravel bank at Pleasant Ridge by a cave-in. No one else was injured. The man's home is at Pleasant Ridge.

Wiman's Trial Postponed.

NEW YORK, May 29.—Erastus Wiman's trial on the charge of forgery was postponed Monday until June 11. The delay was granted on motion of Mr. Wiman's counsel.

Cincinnati Tobacco Market.

Furnished by the Cincinnati Leaf Tobacco Warehouse Company:

We can announce to our patrons, as we suggested in our last circular, that we feel more impressed that we have passed the worst depreciation of the tobacco market. Reports from manufacturers are more encouraging, and from the fact that they have been active bidders on all grades of both old and new tobacco, we are able to report an advance over previous week's prices of both old and new, upon nearly all grades. The good in both crops shows the greatest advance.

The marked started on Tuesday with rather light offerings, but the buyers bid liberally, and prices of previous week were fully sustained, with a better market on everything, and rejections were small.

On Wednesday the offerings were much larger, with a more liberal share of good tobacco, which was sold at good advances over former price very satisfactory to the sellers. Rejections very light.

Thursday and Friday the offerings were much larger, but prices were maintained through the whole week and rejections light.

We think that parties holding old tobaccos would do well to offer in small quantities, as the manufacturers are looking after it with more interest than for some time.

Annual Offerings—For 1894 to date, 41,682 hhds. For 1893 to same time, 38,832 hhds.

Louisville Tobacco Market.

Furnished by Glover & Durrett, Louisville Tobacco Warehouse Company:

Sales on our market for the week just closed amount to 2,763 hhds, with receipts for the same period, 2,733 hhds. Sales on our market since January 1st, amount to 78,544 hhds. Sales of the crop of 1893 on our market to this date amount to 78,892 hhds.

We have had a firm and active market throughout the week for all grades of burley tobacco in good condition. The reports which reach us from the country would indicate that a much larger per cent of old tobacco has been transplanted than is usual in this time of year.

The following quotations fairly represent our market for burley tobacco (1893 crop):
